This enjoyable half-day sightseeing tour introduces you to the Danish capital before proceeding to the fascinating "freetown" of Christiania. The route starts with a photo stop at the famous statue of Hans Christian Andersen's Little Mermaid. After a photo stop at Amalienborg Palace, the Danish Royal Family's winter residence, the tour continues to the freetown of Christiania, a self-proclaimed autonomous anarchist district of about 1,000 residents within Copenhagen. Our tour begins along the fjord before ascending the mountain in spectacular style, via a series of 11 hairpin bends. At the uppermost "Eagle"s Bend", we will stop to enjoy the fantastic view below: in the distance you can see traditional old farms, stubbornly clinging to narrow shelves high above the fjord. For generations, families were able to make a living in these high pastures and today great efforts are being made to restore and preserve this historic way of life. We return via the same road, which was completed in 1952, passing several farms, some of which are over 200 years old. Drive through the village of Geiranger, passing the famous octagonal wooden church, which was built in 1842, before heading for the Flydal Gorge viewpoint. You may well recognize the view here, as it is often used in advertising as a typical example of Norway's beautiful fjords. We will have time to enjoy the fabulous view and photograph our ship on the water before we return downhill once more.

The Geirangerfjord is undoubtedly one of Norway's most fascinating sights. The mountains tower overhead on both sides and we will pass several waterfalls with stories to their names such as the "Suitor", the "Bridal Veil" and the "Seven Sisters". Our tour begins along the fjord before ascending the mountain in spectacular style, via a series of 11 hairpin bends. At the uppermost, "Eagle"s Bend", we will stop to enjoy the fantastic view below: in the distance you can see traditional old farms, stubbornly clinging to narrow shelves high above the fjord. We return via the same road, which was completed in 1952 passing several farms, some of which are over 200 years old. Ascending the Geiranger road that links the district with eastern Norway during the summer months, we pass several hotels before reaching the Norwegian Fjord Centre. The Centre provides both information and an experience: visitors can study exhibitions on themes such as nature, culture and history whilst gaining insight into life on the inaccessible farms that cling to the sheer mountainsides around the fjord. Very well presented, the display comes alive with sound and images. A simulated avalanche even provides a graphic demonstration of the forces of nature at their most impressive. After the visit, we head uphill to the famous Flydal Gorge viewpoint, passing several camping sites on the way. From here, you can admire the fabulous panorama and photograph our ship down on the fjord before we return downhill once more.

Spend a day off the ship to explore and enjoy Norway's spectacular natural scenery on this coach-based tour. On leaving the port in Hellesylt, the first leg of the tour will take you to Hornindal Lake, the deepest lake in Europe at 514 metres and a place of outstanding natural beauty. Next up is the little village of Stryn, which sits pretty on the banks of Nordfjord, after which the route will take you over the Stryn mountains, passing waterfalls and lakes as you climb to an elevation of 1.500 metres above mean sea level to reach Mount Dalsnibba. This is a great spot for taking photos as it affords magnificent views over the amazing Geirangerfjord, which stretches along a length of some 15 kilometres and is a UNESCO World Heritage Site. After a short stop to savour the moment, you will then begin your descent back to Geiranger with more breathtaking vistas of the valley to enjoy at the famous Flydal viewpoint. This all-day tour includes lunch in a local restaurant and will come to a close with your return to Geiranger and your ship.

Please note: if the road to Dalsnibba closes due to the roadworks needed, the tour will go via the Eagle Road and stop at the viewpoint at the top. This tour is not available on May calls. BEST OF ALESUND - ASD01

**Duur**

This tour will take you to see Alesund, a town founded in 1793 and now one of the most important seaports in Norway. A fire devastated the town in 1904 that destroyed the city centre. However, the town literally rose up like a Phoenix from the ashes and was beautifully rebuilt in art nouveau style. Today, Alesund is one of the world's few art nouveau towns that have succeeded in retaining their architectural integrity. Your guide will take you on an enjoyable sightseeing tour of the city, visiting an open-air museum and a unique local boat collection. You will also have a stop to admire the exterior of Alesund Church, the biggest one in the city, built in concrete and Norwegian marble with beautiful decorated stained-glass windows before returning to the port.

Please note: limited number of guides in languages other than English. Should a tour guide for your language be unavailable, the tour will be in English only. This tour includes 1 hour of moderate walking at the open-air museum, with some thresholds and steps at the houses. The Museum is only partly accessible to wheelchair users. PEDAL-PUMPING AROUND AURLANDSFJORDEN - FLABK2

Duur
5 u

This tour is made easier by riding a pedelec - an electrically powered bicycle which assists the rider's pedal power at speeds of up to 25 km/h. Lots of fresh Norwegian air, spectacular scenery and a pedal-pumping workout await you on a half-day outing that will see you hop on an electrically assisted bike to explore the breathtaking landscape surrounding Flåm. The first 15 km of the guided tour will see you cycle on the main road through the Aurlandsfjorden valley, with towering mountains and cascading waterfalls on either side. On reaching the village of Skjerdal, you can enjoy a break and soak up stunning views from the elevated location. Moving on again, you'll ride downhill alongside Aurlandsfjorden to the pretty town of Aurland, which nestles amid the snow-capped peaks. Take a breather for a moment here before continuing on to a fascinating open-air museum, which recreates a Norwegian farm c. 1700: Otternes. The farm's infrastructure - stairs, stone walls, wells, etc. - remains largely intact and provides insight into agriculture as practised all those years ago. The tour then draws to a close with your equally scenic return ride to the ship.

Please note: the distance covered on this biking tour totals approx. 30 km with a 500-m gain in elevation. This tour is available only for guests on MSC Meraviglia and MSC Preziosa. Children are allowed to take part in this tour provided their height is 155 cm. A declaration of agreement must be signed by an adult with parental authority for children before authorisation can be given for such guests to take part.
